

## **Adding Hybrid as a Schedule Type**

To simply add Hybrid as a schedule type with no other changes to a course, contact Cheryl Hagey, Curriculum Coordinator in Academic Programs, Assessment, and Accreditation (APAA), and she will assist you.

If a proposal is being prepared to update a course in any other way and Hybrid schedule type is also being selected, this type of change course proposal must go through the regular review and approval process of the Curriculum Proposal System (CPS). Please add your request for Hybrid in the Justification.
