

NEW2OSU

Certificate of Completion (years 1-3)

Structured on existing literature New2OSU is focused on impacting student success by accelerating the effectiveness of newer teachers. In collaborative cohorts, participants develop the knowledge and skills necessary to build inclusive, interactive, and instructionally sound learning environments to promote student engagement, retention, and deeper levels of learning. New2OSU partners with units across campus for participants to learn about OSU's policies and practices; our teaching and learning culture; and available resources.
